Andrew,

Thanks for sharing the Fact Sheet. I have minor edits and couple of comments. See if they make sense.

Best,
Sury

Emma,

Attached is the revised document (as a stand-alone or shared edit version). There are a couple of comment bubbles to explain some of the edits but otherwise clean.

Kris

Samantha, CPAD,

Comments from Chris Frey attached and noted here:

Ex. 5 Deliberative Process (DP)

I think we'll be doing okay if we can turn this around by Monday. Today we learned that the Administrator has some travel in the next few weeks, but also will be in DC part of next week and the following week, so that's our window.

It's possible you will get more comments from IOAA over the weekend, specifically Maureen. Note the request to have it back on Monday. Please ask me if you want my help or insight.

-Emma

Subject: Formaldehyde IRIS assessment factsheet for IOAA (in prep for McCabe and Utech sharing)

Hi all,

After our meeting earlier this week on the plan for sharing a 2-page factsheet on the draft Formaldehyde IRIS assessment with Janet McCabe and Dan Utech, to determine if an administrator briefing is needed prior to the next step in the IRIS process, Step 4 public comment/external peer review.

We revised the factsheet to address recommendations from the IOAA. Please see the attached for IOAA review and let us know if you have any questions or comments.

Thanks,
Samantha
